unique natural extraordinary

The Potters Collection by Robert Gordon includes an exciting and informal assortment of embossed plates, platters, bowls and accessories in two unique colours: Pier and Storm. Each colour has a distinct finish that is stunning on its own or can be beautifully mixed to create an unforgettable tabletop. The reactive glazes ensures that no two pieces of this Australian-designed porcelain will be exactly alike.

The stacking plates and bowl are great for stacking back of the house, or serving stacked sharers to tables; these, trendy straight-sided, round trays make the most of the plating surface, perfect for every presentation.

profiles in elegance

Essence is a new shape in porcelain designed by Rene Ozorio. The collection of rimmed presentation and banquet plates, coupes, trays, and bowls provide a clean, modern look for tabletops and food presentation.

For Rene Ozorio, Essence signifies “the return to the pure nature of white porcelain in a shape whose sculptural simplicity speaks of modernity.” The thin, elegant profile provides a light & contemporary product that is durable and ideal for hotels & restaurants.

“in praise of shadows” ~Jun’ichiro Tanizaki

Atelier: the name evokes the hand of craftsmen and the tradition of artisanal fabrication. The realisation of this fluid optical design was through the collaboration with artisans, who hand carved the models for each piece. The calculation of the embossment and the glazing produces an effect of ebbing water in the tide pools. Designed with fine dining in mind, the lightness in weight and porcelain colour speak of quality and craftsmanship.

“Atelier is inspired by nature, light and shadows. I was reminded of the days by the sea, watching the changes in the sand & pools of water brought by the ebb & flow of the tides. The element of water in motion.” ~ Rene Ozorio

handmade & organic appeal

Forager by Robert Gordon is designed with a carefully applied reactive glaze that free-flows over each shape to create a unique finish that is different on every piece. Featuring an unglazed bottom, this collection highlights the richness of raw materials through exposed stoneware and offers a handmade & organic appeal. From the creator himself, Robert “Andy” Gordon, he compares the signature tray design to “tree bark once used to gather things such as forage seeds, berries, and roots from the forest”, hence its namesake, Forager. Unlike any other, these enduring & functional shapes are finished with a stamp of Andy’s handwritten signature and will enhance any foodservice presentation.

The success of the Alkemist range lies in combining the complexity of design with the typical lightness of a tasting glass, an alchemy that makes this line unique and inimitable. The growing demand and suggestions from some of the leading hotels and restaurants in the world led us to develop the water glass and the gin glass. The composition of the line, including goblets and glasses, is suitable for both professional and home use.

Designed for the finest table settings, Aria is the top range for RCR collections. These thin glasses are very shock resistant thanks to the high-density of eco-crystal. The design of the glass angles in from its widest point, indicating the right level of wine to be poured, while the wide cone-shaped bowl of the glass allows you to appreciate the gradations of colour at its very best.

Designed for modern and minimalist table décor, the flat bowl holds the wine in a trapezoid shape, typical of modern table settings. The refined design expresses this in the slight reopening of the rim which, in addition to enhancing the release of aromas, facilitates the sliding of the liquid during tasting and gives the glass a soft, elegant silhouette.

The Etna collection is inspired by the power of the eruption of the Sicilian volcano. The perfect imperfection of nature is engraved on the glasses and goblets: light is reflected on the carvings and is multiplied on different levels enhancing the exceptional transparency of the Eco-Crystal.

chafing dishes at a phenomenal price point

We are pleased to bring hydraulic closing chafing dishes to the Creations collection. Each chafer has a convenient large glass view in the cover in order to increase visibility of the food while minimising the times the lid is opened, therefore keeping the heat in and the food at proper serving temperature. Additionally, the easy-to-remove hydraulic lid closes on its own to ensure that food is kept safe and covered during service. Great for any buffet display, these chafers are induction capable and perfectly priced for even the most value-conscious operators.

servicing food in style

Create an inviting & cosy presentation on your buffet with Homestyle Chafers from Creations. Available in brushed stainless steel and antique bronze finishes, these unique vessels look like cookware you'd use at home, but have the functionality of a high-volume chafing dish at a great price point. Safe for the oven, freezer or on induction, the Homestyle Chafers are also dishwasher safe, making cleanup quick and easy.

Extra style with oval dishes and teaware shapes. The Connoisseur Teapot has been specifically designed to be utilised with the finest quality teas and avoids over brewing when combined with the Teapot Infuser. The exacting capacity means that once the first cup is poured, the remaining water level drops below the level of the tea leaves in the infuser and hence avoids over brewing.
